

§ 201.4

12 CFR Ch. II (1–1–01 Edition)

The rate applicable to such credit will be above the highest rate in effect for advances to depository institutions. Where the collateral used to secure such credit consists of assets other than obligations of, or fully guaranteed as to principal and interest by, the United States or an agency thereof, an affirmative vote of five or more members of the Board of Governors is required before credit may be extended.

(e) *Special liquidity facility for century date change.* Federal Reserve Banks may extend credit between and including October 1, 1999, and April 7, 2000, or such later date as determined by the Board, under a special liquidity facility to ease liquidity pressures during the century date change period. This type of credit is available only to eligible institutions. This type of credit is granted at a special rate above the basic discount rate and other market rates for funds, is available for the entire length of the period, and is not subject to the conditions regarding specific use or exhaustion of other liquidity sources as is adjustment credit under paragraph (a) of this section.

[58 FR 68513, Dec. 28, 1993, as amended at 64 FR 41769, Aug. 2, 1999]

§ 201.4 Limitations on availability and assessments.

(a) *Advances to or discounts for undercapitalized insured depository institutions.* A Federal Reserve Bank may make or have outstanding advances to or discounts for a depository institution that it knows to be an undercapitalized insured depository institution, only:

(1) If, in any 120-day period, advances or discounts from any Federal Reserve Bank to that depository institution are not outstanding for more than 60 days during which the institution is an undercapitalized insured depository institution; or

(2) During the 60 calendar days after the receipt of a written certification from the Chairman of the Board of Governors or the head of the appropriate Federal banking agency that the borrowing depository institution is viable; or

(3) After consultation with the Board of Governors.¹

(b) *Advances to or discounts for critically undercapitalized insured depository institutions.* A Federal Reserve Bank may make or have outstanding advances to or discounts for a depository institution that it knows to be a critically undercapitalized insured depository institution only:

(1) During the 5-day period beginning on the date the institution became a critically undercapitalized insured depository institution; or

(2) After consultation with the Board of Governors.²

(c) *Assessments.* The Board of Governors will assess the Federal Reserve Banks for any amount that it pays to the FDIC due to any excess loss. Each Federal Reserve Bank shall be assessed that portion of the amount that the Board of Governors pays to the FDIC that is attributable to an extension of credit by that Federal Reserve Bank, up to one percent of its capital as reported at the beginning of the calendar year in which the assessment is made. The Board of Governors will assess all of the Federal Reserve Banks for the remainder of the amount it pays to the FDIC in the ratio that the capital of each Federal Reserve Bank bears to the total capital of all Federal Reserve Banks at the beginning of the calendar year in which the assessment is made, provided, however, that if any assessment exceeds 50 percent of the total capital and surplus of all Federal Reserve Banks, whether to distribute the excess over such 50 percent shall be made at the discretion of the Board of Governors.

(d) *Information.* Before extending credit a Federal Reserve Bank should ascertain if an institution is an undercapitalized insured depository institution or a critically undercapitalized insured depository institution.

[58 FR 68514, Dec. 28, 1993]

¹ In unusual circumstances, when prior consultation with the Board is not possible, a Federal Reserve Bank should consult with the Board as soon as possible after extending credit that requires consultation under this paragraph.

² See footnote 1 in § 201.4(a)(3).
